**23rd WORLD EXHIBITION FOR
WOODWORKING TECHNOLOGY
AND FURNITURE SUPPLIES**
MILAN (ITALY) - FIERA MILANO - FAIRGROUNDS RHO
MAY 8/12, 2012

C
To be returned to Cepra SpA
not later than 15/9/2011
using the pre-addressed envelope

EUMABOIS
European Federation of Woodworking
Machinery Manufacturers

SUBDIVISION OF THE HALLS BY PRODUCT GROUPS - EXHIBITOR

In accordance with Article 16 of the General Regulations and where possible, the stands are divided in sections according to the product category.

Therefore, CEPRA reserves the right to allocate the Companies in accordance with this logic.

This form is to be returned together with the application form by **15 September 2011** and the stand will be allocated according to the product category chosen from the list below.

Exhibitors presenting products that fall under more than one category must **only** mark the category of primary importance.

N.B. Manufacturers of machinery, accessories and tools for the craft industry and manufacturers of painting systems can select the categories pertaining to timber processing or panel processing.

FORESTRY PROCESSING (Open air)

- machinery, vehicles and equipment.

PRIMARY WOOD PROCESSING (Hall 4)

- primary wood processing machinery, accessories and tools (e.g. log saws, shears, veneer cutting machines, systems for chipboard and fibrous panels, sanders, packaging machinery for wood and pallets, technologies for the production of laminated beams).
- supplies (e.g. lumber, beams, semi-finished structural products).

TIMBER PROCESSING AND FINISHING (Hall 2)

- secondary timber processing machinery, tools and accessories (e.g. moulding machines, tenoners, milling machines, machinery and systems for window and door fittings, chair machinery and systems) and technologies for painting hardwood.
- supplies (e.g. semi-finished products, hardware, finishing products, glues and adhesives that complement the timber processing system).

PANEL PROCESSING AND FINISHING (Halls 1, 3, 5, 7)

- secondary panel processing machinery, tools and accessories (e.g. panel saw machines, tenoners, edge banders, hole boring machines, inserting machines for dowels, presses and clamps), technologies for panel painting, packaging machines, machines for upholstering, relative tools and accessories.
- supplies (e.g. furniture raw materials, semi-finished products, components, hardware, finishing products, glues and adhesives that complement the panel processing system).

INSTITUTIONAL AREA

- associations, various organisations.
- specialized press.
- cultural area, various initiatives.

If the product category is marked incorrectly or not marked at all, it will be up to the organisers to correct this. It is also up to the organisers to decide upon late application forms received **after 15 September 2011**. Moreover, CEPRA reserves the right to allocate the stands following the above-mentioned logic, in accordance with availability of the exhibit area and in line with the technical-organisational requirements of the exhibition.
